

At First Sight Home Staging, LLC  
*Interior Redesign and Real Estate Staging*

## About Us

We design with a purpose. To help you stage a property for sale. To revitalize your current home by simply remixing what you already own. To ease the transition from old to new when downsizing. Whatever the purpose, you'll find our staff of design pros as warm and friendly as the rooms they create.

### **Nancy Schatz, AFS president and senior designer**

Nancy began her redesign career in Atlanta with Showhomes of America, then went on to open and manage the first Showhomes office in Washington, D.C. After Showhomes, she joined Bridgestreet Accommodations as a corporate sales rep, and four years later became vice president of Interim Housing Solutions, a short-term housing locator service focused on corporate relocations. She launched At First Sight in 2007 to blend her passion for design with her skills for organization and marketing. Nancy is an Accredited Staging Professional, Certified Relocation Transition Specialist, Certified Interior Redesign Specialist and member of the National Association of Professional Organizers.
